University of Illinois – Urbana Champaign

Bachelor of Computer Engineering, Jun 2002 – Jun 2006
University of Mumbai, India

PROJECTS

UniMove, a marketplace app for university students to buy and sell used stuff.

SpotMix, a collaborative music app for people listening to music in a group.

EXPERIENCE

University of Illinois Urbana Champaign
Web Developer, Champaign, Oct 2019 – Present

Developing website using Sitefinity, JavaScript, HTML, CSS.

J.P. Morgan Chase
Software Developer, Mumbai, June 2010 – June 2018

Developed and tested FX payments and middle office systems using Java, Python, and Oracle. Conducted root cause analysis of production issues and collaborated with product managers, production support, and QA teams globally to ensure smooth deliveries. Mentored interns and new joiners.

Infosys Technologies Limited
Software Developer, Pune, Jun 2006 – Jun 2010

Tested AT&T platforms ensuring user requirements were captured and tested thoroughly. Optimized in-house J2EE framework and load tested application for performance on high load. Managed a team of four people. Ensured timely project deliveries.
